

MUST REMOVE ALL SCREENS

Barkeepers Will Be Fined Heavily if Law Is Not Complied With.

ORDINANCE EFFECTIVE FRIDAY

Carpenters and Glaziers Will Have to Work Overtime to Rearrange Saloons.

With just twenty-four hours left within which to comply with the provisions of the ordinance, the saloons in the city have yet removed their screens, ground glass, stained glass or other opaque windows, obscuring the view of the interior of such places of business. Unless this is done by midnight Friday every saloon, hotel bar or restaurant and saloon, failing to comply with the terms of the ordinance will become liable to a fine of from \$100 to \$500. It will be the duty of the police to arrest or report every proprietor.

The law specifically prescribes that no screen, blind, shutter, curtain, partition or painted, ground or stained glass window or door, or any other obstruction shall be permitted in any place where liquor is sold to be drunk where sold. It will be almost a physical impossibility for every saloon in the city to make the necessary alterations to comply with the law within the limited time left. The carpenters and glaziers will have to work overtime to make the various saloons comply with the law by Friday midnight. The ordinance was approved by the Mayor, December 18th, thus allowing six weeks or more within which to comply with its provisions. It has been published, as required by law, and will become effective February 1st.

Here is the full text of the ordinance as finally approved, and as it will be enforced by the Police Department:

The Ordinance.

12. Every hotel-keeper and keeper of a restaurant, barroom, store, saloon or other place where ardent spirits, beer, cider or other such drinks are sold or given away shall, on each and every day close the barroom or place where such drinks are sold or given away between the hours of 12 o'clock Saturday night and 5 o'clock the succeeding Monday morning, and on the other days of the week between the hours of 12 o'clock midnight, and 6 o'clock the next succeeding morning. During the hours and at the time when the sale of ardent spirits, beer, cider or other such drinks is prohibited, no screen, blind, shutter, curtain, partition, or painted, ground or stained glass window, or door, or any other obstruction shall be allowed to remain in place or maintained, or be permitted to be placed or maintained, in any barroom or other place for the sale of such drinks to be drunk on the premises, in such a way as to interfere with a clear view of the interior of said premises from the street, or, if such premises do not open on the street, from a public entrance.

At all times when any barroom or other such place shall be open, the license under which the business is conducted shall remain posted in some conspicuous place in the barroom or place of such business.

Any person violating any provision of this section shall be fined not less than one hundred nor more than five hundred dollars.

2. This ordinance shall be in force from and after February 1, 1907.

MAJOR MITCHELL DEAD.

Expired From Stroke of Apoplexy While Speaking.

CHARLESTON, S. C., January 30.—While delivering an address before the City Federation of Women's Clubs in the St. John Hotel this afternoon, Major Julian Mitchell, chairman of the school board, and the leading criminal lawyer of the Charleston bar, dropped dead from a stroke of apoplexy. Major Mitchell was in his seventy-second year. During the year between the States he served the Confederacy on the staff of General R. S. Ripley. He was secretary of legation at St. Petersburg under Samuel B. Pickens.

GAME SEASON ENDS.

Unlawful to Kill, Sell or Have in Possession Partridges.

The season for killing, or having in possession, any quail or partridges, pheasants, grouse or wild turkeys will expire to-day. After to-day it will be unlawful to kill, sell or have in possession of such game to-day. If found in their possession after to-day they will be liable to prosecution. The season for killing deer closed January 1st. Quail and wild turkeys have been rather more abundant this season than for several seasons past. The farmers are all interested in the preservation of these useful birds, and it is hoped that they will use their influence in having them protected during the remainder of the winter.

WHO OWNS ENVELOPE?

It Contains Money Left With County Treasurer Hechler.

Mr. H. C. Hechler, treasurer of Henrico county, is inquiring for the owner of an envelope, which is said to contain money left in his care some time ago. Mr. Hechler says that some one came in his office nearly a year ago with the envelope, which he asked him to put in his safe overnight. The owner has never called for same, and Hechler is advertising for the consent of the owner to open the envelope, and donate the contents to the Y. M. C. A. fund.

Junior Howitzers.

The Junior Howitzers will hold their regular meeting Thursday night at 7 o'clock at the Seventeenth Regiment Armory, corner Seventh and Marshall.

A full attendance is requested, as the entertainment committee expects to make a report of great interest.

Insurance Paid.

The Royal Arcanum on Tuesday paid to Mrs. Emma A. Bargamin, widow of Charles Y. Bargamin, the sum of \$5,000, this being the amount of insurance on the life of Mr. Bargamin. The deceased was a member of Belvidere Council, No. 1134, Royal Arcanum.

Lord Charles Beresford Sails.

LONDON, January 30.—Admiral Lord Charles Beresford left Southampton to-night for New York, aboard the German Kaiser Wilhelm II.

Lord Delaval, Beresford's brother or Lord Charles, was killed in a railway wreck at Enderlin, N. D., on December 23d last. This admiral is coming to the United States to attend to his late brother's affairs. He is the sole executor of the will of Lord Delaval.

Counterfeits, Imitations and "Just-as-good" are but Experiments, and endanger the health of Children—Experience against Experiment.

The Kind You Have Always Bought Bears the Signature of

Chas. H. Fletcher
In Use For Over 30 Years.

MILITARY MATTERS

Lieutenants Chester McGhee and Le Grand, of Company E, Seventeenth Regiment, the Lynchburg Home Guard; Captain Raine and Lieutenant Powell, of Danville, Company M, and Lieutenant Herbert, of Company F, of this city, have just been examined for their commissions by the State Military Board, and are now entitled to their straps.

Orders have been issued from the Adjutant-General's office directing the officers of Companies F, I and M, Seventeenth Regiment, to assemble at Suffolk to-morrow to elect a major of the Third Battalion of that regiment. Major E. W. Owens, of Portsmouth, Second Battalion, will preside.

The adjutant-general has just promulgated an order reorganizing the companies of the Virginia Cavalry into battalions, as follows: Companies C, of Newport News; D, of Hampton, and K and L, of Portsmouth, to compose the first battalion; Companies A, B and E, of Norfolk, to compose the second battalion; Companies F, G, S, Suffolk, L, of Franklin, and M, of Emporia, to compose the third battalion.

Authority has been given W. Turnbull and others, of Lawrenceville, to form an infantry company, to be known as Company H, and attached to the Seventeenth Regiment.

The fate of Company H, of the Seventeenth Regiment, this city, is somewhat in doubt. The command is without a captain, and has but one colonel, an officer, Colonel Perry, it is said, advised the mustering out of the command, and this course may yet be taken. Major C. G. Ross, to whose battalion the company is attached, is making an effort to secure the continu-

ance of the organization, and to rehabilitate it. The prospect is that a captain will soon be elected, and that the company reorganized and brought fully up to the standard.

Company A, of the Richmond Light Infantry Bikes Battalion held a meeting Tuesday night in their temporary quarters at Fourth and Broad Streets, but having neither arms nor uniforms, did not undertake a drill. The appointment of Raleigh W. Hicks as quartermaster-sergeant of the company was announced.

Members of the Blues Battalion declined last night to make public the amount of money subscribed for the uniforming and equipment of the battalion, but admitted that the canvassers had met with most gratifying success. It is believed that the amount already subscribed is from \$2,500 to \$3,000. Many merchants and others have contributed. Former Lieutenant-Governor Willard, who was recently offered command of the battalion, has sent a check to help the boys secure new uniforms, but the amount was not announced.

Company F, of the Seventeenth Regiment, had a fine drill last night, with all the officers and about 25 men present. This command is in excellent shape, and is excelled by no other in the regiment, perhaps.

An effort is being made by Major C. G. Ross and others to reorganize and invigorate Company H, which has but one officer at present, owing to the failure of the command to elect.

The Junior Howitzers will meet at the Regimental Armory for drill on Thursday night. The youngsters are taking interest in the work and hope soon to develop into a full-fledged company.

THEY WILL FIGHT EXTRADITION

Alleged New York Baggage Thieves Resort to Habeas Corpus Proceedings.

Attorney H. M. Smith, Jr., left last night at 8:30 o'clock for New York in company with several policemen and detectives, and is expected to be a principal factor at the trial of Miller, Vance and Stein, the two men and one woman, who are alleged to belong to a gang of railroad thieves who have stolen baggage and valuables worth more than \$300,000 within the past two years.

The New York prisoners have secured counsel and a writ of habeas corpus has been sued out. Unless the Virginia detectives and officers can show that the people are fugitives from justice in Virginia and can also prove their identity as persons who robbed the railroads in the different places, the requisition papers, which have already been returned by Governor Hughes, will be of no service to the detectives.

Mr. Smith will represent the Pennsylvania Railroad and the Chesapeake and Ohio Railroad. He will be introduced by a lawyer in New York City by the district attorney, and he has gone prepared to meet every point made by the counsel for the prisoners.

Detective Sergeants Wren and Bailey, with Detective L. L. Scherer and a dozen or more detectives from different parts of the State, left last night on the same train for New York. They will offer evidence this morning that will be damaging to the prisoners.

However, history has it that one Richmond detective has been going to New York for twenty years after criminals who were wanted here, and who could be proved guilty were they tried by a jury, and has yet to come back with a prisoner. The requisition papers are always honored, but when the accused party is a party have money, habeas corpus proceedings are instituted, and after six or eight months the prisoners are allowed to go.

The magnitude of this case may mean that the prisoners arrested in New York will be brought here, despite the fact that they have employed eminent counsel to fight extradition. The fact that Mr. Smith is going to the metropolis to make a resistance against the fight of the New York lawyers leads to the belief that the men will be brought back here.

ALL WEST POINT CADETS WILL BE AT JAMESTOWN

WASHINGTON, January 30.—Secretary Taft to-day authorized the superintendent of the West Point Military Academy to take the entire corps of cadets to the Jamestown Exposition. The matter was presented to the department in a letter from the superintendent, who pointed out the advantage to the cadets from such a visit. The date when the visit will be made has been left to the discretion of the superintendent.

Commended Firemen.

The Virginia Fire and Marine Insurance Company has sent a check to the chief of the Fire Department for \$100, together with a letter stating that the donation is "in recognition of the splendid work of the department under trying conditions at the fires on the 23d instant." In all the Firemen's Relief Fund has been augmented by donations to the amount of \$525 since last Wednesday.

Chief Shaw Is Out.

Assistant Chief Shaw of the Fire Department, who was injured by a fall at the lumber plant of W. J. Whitehurst, has sufficiently recovered from his hurts to resume duty in the department. Chief Puler is still ill and incapacitated, so that Mr. Shaw is practically chief.

"SALOME" WILL BE DISCONTINUED

Opera Will Not Be Played in New York—May Be Presented Elsewhere.

NEW YORK, January 30.—A decision to discontinue the presentation of the Strauss opera, "Salome," at the Metropolitan Opera House, was reached to-day at a conference between the directors of the company owning the opera house and the representatives of the Metropolitan Opera Company, which leases the building. The conference was the result of a letter sent by the directors of the owning company, protesting against further presentation of the opera.

Mr. Conried announced later that he had decided not to give "Salome" in this city at any theatre. It has been suggested that he might produce the opera at some other house than the Metropolitan, but this he does not care to do. No decision has been reached as to the performances of "Salome" scheduled for other cities.

The company owning the building was represented at the conference by J. P. Morgan, W. W. Vanderbilt, August Belmont and others. Otto H. Kahn, Robert Goetz, Rawlins Cotton, H. R. Winthrop and James Speyer represented the opera company.

It was agreed that the production of the opera, within the provisions of the lease, that the operas must be approved by the owners of the building, and that no performance can be given if objected to by them.

TO SMOOTH OVER JAPANESE TROUBLE

President Holds Satisfactory Conference With San Francisco Authorities.

WASHINGTON, January 30.—After two hours' conference at the White House to-night, regarding the Japanese question on the Pacific coast, the California delegation in Congress authorized the following statement: "The California delegation had a very full and harmonious discussion with the President, the Secretary of State, and the Secretary of the Navy, on the serious questions relating to the Japanese on the Pacific coast. The character of the discussion led us to feel convinced that a solution will be reached satisfactory to all concerned."

"The result of the meeting is that that delegation has to-night telegraphed to the president of the San Francisco Board of Education, and the superintendent of schools to convene at the White House to a conference with the President and Secretary of State."

JOHN D. ROCKEFELLER KILLED BY GATLING GUN

CHICAGO, January 30.—John D. Rockefeller, of New York, an actor, was killed on the stage of a theatre to-day by a gatling gun which fell on his skull. Rockefeller was helping remove the gun from a temporary platform on the stage.

"Lifted" a Horse.

Ben Taylor (colored), who is now serving a sentence in jail for some offense, has now another and more serious charge to face. Yesterday a warrant was sworn out charging him with stealing a horse, valued at \$125, from A. H. Bowling. The circumstances surrounding the alleged theft could not be learned last night.

INSTRUCTED BY GOD TO BURN TOWN

Insane Man Sets Fire to Many Buildings in Smithfield.

SHOT 4 BEFORE ARRESTED

Mob Attempted to Lynch Maniac, Who Is Now in County Jail.

NEW MARTINSVILLE, W. VA., January 30.—Claiming that God had instructed him to burn the town of Smithfield, W. Va., thirty miles from here, a man who gave the name of Harry Howard was arrested there last night. It was ascertained that an attempt had been made to fire a hotel and simultaneously three other buildings. The home of W. A. Lewis, cashier of the Smithfield Bank; the Smithfield general store and billiard hall burst into flames. The fires, however, were extinguished with small losses.

Howard resisted arrest, and before he was captured shot four men, two of them, it is said, receiving fatal wounds. After he had been placed in the lockup a mob attacked the building for the purpose of lynching him, but the crowd was driven off, and later Howard was secretly brought to the county jail here. The men wounded by Howard were Earl and Grover Hildebrand, W. E. Smith, chief of police, and Charles Edgell, constable. The Hildebrand brothers will probably die.

GAVE FEE TO CHURCH.

"Sport" Who Lost at Poker Refused Pay for Testifying.

NEW HAVEN, CONN., January 30.—William Fitzpatrick, a Bristol "sport," dropped \$500 in a game of "stud" poker in East Hartford last night. When he found the game was not exactly on the square, he "squealed," and five East Hartford men faced the judge in the Town Court at East Hartford to-day. All were found guilty of frequenting a gaming place and fined \$5 and costs apiece. Fitzpatrick, when offered \$5 in witness fees from the five cases, said: "Oh, I don't want that; I got my money's worth when those guys paid up. Give it to the church."

The money was turned over to the Kings Daughters, a charitable society of the Congregational Church, who accepted it with thanks.

DR. THOMAS HUME RETIRES IN JUNE

(Special to The Times-Dispatch.)

CHAPEL HILL, N. C., January 30.—Dr. Thomas Hume, professor of English literature in the University of North Carolina, has tendered his resignation, much to the regret of the entire student body. On receiving his resignation, which is to take effect next commencement, the board of trustees conferred on him the honorary position of professor emeritus.

The direct cause of his resignation is that the Carnegie Foundation for the Advancement of Teaching has notified him that "on account of distinguished services to education," they wish him to accept an annuity to be given when he chooses to retire from active work. He thinks it best to accept the honor and to retire next June.

Dr. Hume took a B. A. degree from Richmond College at the age of nineteen. A year later he entered the University of Virginia, where he did advanced work in Latin, French and English, taking several degrees. While at the University of Virginia he was Washington society editor of the Literary Magazine. He was a charter member of the Young Men's Christian Association, and first president of the first College Young Men's Christian Association of the World.

During the Civil War Dr. Hume served as chaplain of the Third Virginia Infantry, and later acted as post chaplain at Petersburg until the close of the war. From that time until 1885 he was engaged in teaching at various educational institutions.

Dispensary Is Doomed.

COLUMBIA, S. C., January 30.—The House of Representatives to-day, by a vote of 74 to 48, passed a bill abolishing the dispensary system. The bill is committed to the same policy by a majority of three votes, so that the dispensary seems to be doomed.

Meeting for Divine Healing.

A meeting for divine healing will be held to-day at 4 P. M. in the West End Mission, No. 400 North Second Street. Religious and pentecostal services are held every night at 8 o'clock.

THE VALUE OF CHARCOAL.

Few People Know How Useful It Is in Preserving Health and Beauty.

Costs Nothing To Try. Nearly everybody knows that charcoal is the safest and most effective disinfectant and purifier in nature, but few realize that when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take the better it is for you. It purifies the blood, cleanses the system, and simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectively cleans and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the insidious gases which collect in the stomach and throat from the poison of catarrh. All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are contained in a box of Stuart's Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of a fine, pleasant-tasting lozenge, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, purer breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but, on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clean the complexion and purify the breath, mouth and throat. I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

Send your name and address to-day for a free trial package and see for yourself. E. A. Stuart Co., 55 Stuart Bldg., Marshall, Michigan.

CAROLINA TO HAVE NEW DIVORCE LAW

Kitchen Bill, Providing That Ten Years' Separation Sufficient Ground, Likely to Pass.

MEMBERS TALK ROUGHLY

(Special to The Times-Dispatch.)

RALEIGH, N. C., January 30.—Besides clearing the calendars in both the Senate and the House of a large number of local bills, there were long drawn-out discussions in the House on the Justice bill for enlarging the powers of the Corporation Commission, and in the Senate on the Kitchen bill for making ten years' separation a ground for divorce where there are no children from the union.

The divorce bill had already passed the House some days ago. The debate today terminated in the passage of the bill on the second reading, twenty-two Senators voting for and twenty against the bill. The third reading was held up on objection by Senator Buxton to its final passage.

The Corporation Commission bill in the House finally passed its second reading, with a number of amendments, including the incorporation of the features of the bill introduced yesterday through Laughinghouse, which was stated to include all the additional power the Corporation Commission desires for controlling railroads and other public service corporations.

The final reading was held up until to-morrow so that some of the other amendments offered might be examined into more closely. Bills were introduced in the Senate by Fleming and House by Jackson providing for the establishment of State Normal and Industrial College for Eastern Carolina similar to the college at Greensboro. The initial appropriation is reported \$25,000, the location of the school to be left to the State Board of Education.

Carolina Exhibits.

The act of the General Assembly appropriating \$20,000 additional to the Jamestown Exposition, making \$50,000 in all that will be expended for the State's representation there, has been ratified, so that it is now a law. J. E. Foote, the commission-general on the part of North Carolina, says that the commission can now proceed without further arrangement with the preliminary arrangements for the installation of the exhibits and the completion and equipment of the North Carolina building, which is to be a splendid Colonial structure of a permanent character. The close proximity of North Carolina to the exposition makes it possible for great numbers of prospecting capitalists and investors to be instructed from the exposition into the State, and this will be one of the chief aims of the management of the North Carolina exhibit.

Charles Smith has been brought to the penitentiary here from Montgomery county, to serve thirty years for killing an old soldier and robbing him. The father of young Smith, who is charged with having actuated the killing by his son, is still in jail. Troy awaiting trial, the probability being that he will be hanged. The evidence developed was that the old soldier spent some time at the Smith home, and had considerable money on his person. He was followed

after he left by the Smiths, father and son, and the son, Charles Smith, killed the veteran with an axe. They robbed the body of \$70, but failed to find \$500 additional that was sewed in the clothes of the old man.

300TH ANNIVERSARY.

Chicago Episcopalians to Celebrate First Service at Jamestown. CHICAGO, ILL., January 30.—The Laymen's Forward Movement Club, of which Bishop Charles P. Anderson is president, has arranged for holding a mass-meeting in Orchestra Hall on the evening of February 5th, in preparation for a national celebration shortly by men of Episcopal Church at Richmond, Va., of the three-hundredth anniversary of the first church services held at Jamestown, Va., in 1607. The speakers are to be Rev. Hiram R. Hull, general superintendent, New York; Charles Edward Field, Chicago; Very Rev. Sydney N. Usher, dean of St. Mark's Pro-Cathedral, Grand Rapids, Mich., and Bishop Anderson.

PREACHER PREFERS RACING TO EUCHRE

CINCINNATI, OHIO, January 30.—"I love a fine horse, and I would rather bet \$25 on a horse than play in a game of euchre for a prize of a blue bowl costing \$5, where the players quarrel with each other about cheating." The Rev. H. C. Jameson, presiding elder of the Cincinnati District, addressed the ministers of this city to-day in the above manner.

He also condemned business men who attended the theatre instead of the church, and attacked theatre-going as a growing evil.

VIRGINIANS BUILD PLANT IN CANADA

Fordwick Portland Cement Company to Erect Big Plant.

(Special to The Times-Dispatch.) NEW YORK, January 30.—Virginia interests are about to construct a large Portland cement plant in Canada, which on completion will be the largest of its description in the Dominion, involving an expenditure of more than \$1,000,000. The undertaking will be known as the Montreal plant of the Fordwick Company, which concern is controlled by the Virginia Portland Cement Company, of Fordwick, Va. The initial capacity of the plant will be 250 barrels daily. Construction will be completed by August.

An interesting feature of the plant will be the electrical equipment. There will be nearly 4,500-horse power employed, the current being transmitted from the Shawinigan power plant. The transmission line will be eighty miles long. There will be close on 100 alternating current motors installed for the purpose of operating the various machinery. The plant will be built on the St. Lawrence River, where docks will be specially constructed and storage for 40,000 tons of coal.
